

Configuration dialog cannot be opened. Use server with historical database.

Error Message	Configuration dialog cannot be opened. Use server with historical database.
Related Products	Voyager 5.0, BMS Client Editor
Description	Voyager is connected to the server without VNET option.
Causes	Voyager is connected via OPC and not via VNET. Some functionality is not available if OPC is used instead of VNET.
Resolutions	(1) Open connection settings dialog ("Server" icon within toolbar) (2) Select Checkbox "VNET" and press "OK"
